

## AI-ADDINS 4 MS ACCESS:

AI Assistants – Bring your own knowledge to ChatGPT

# PRESENTATION

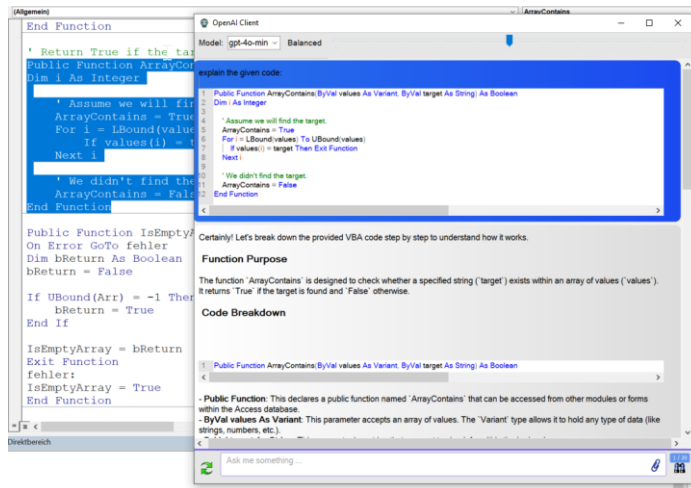

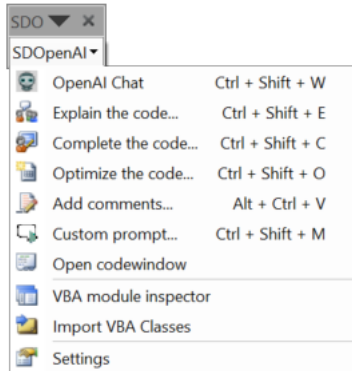

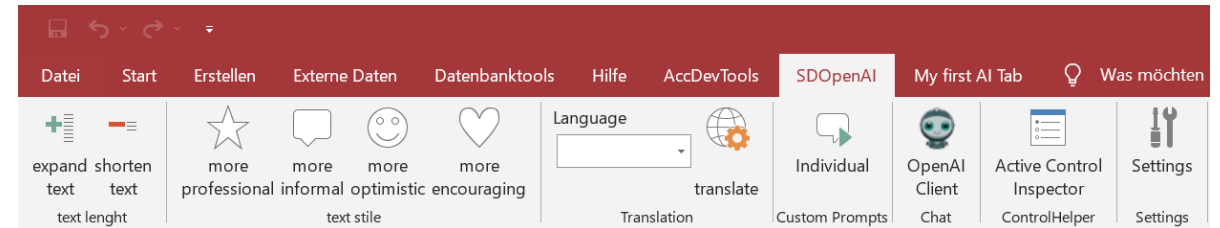

- Alexander Denz
- Software developer, consultant
- Focus:
  - Enterprise resources planning software
  - Integration of AI into MS Office
  - Consulting: data protection, AI implementation

[www.sd-win.com](http://www.sd-win.com) – [office@sd-win.com](mailto:office@sd-win.com)

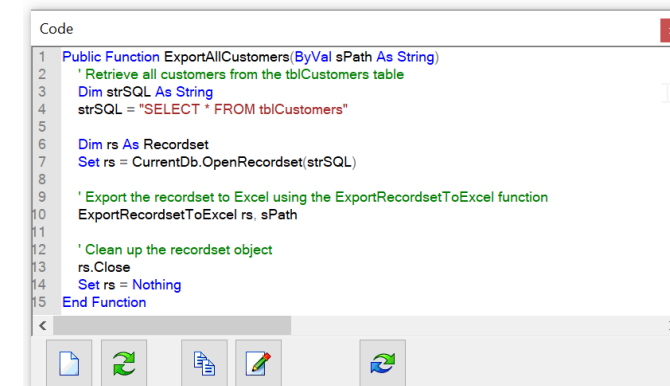

# FIRST GENERATION OF AI ADDIN'S

- Chat GPT interface for MS Access (Word, Excel & Outlook)
- Ribbon Tab with customizable AI functions
- Additions to the VBE editor

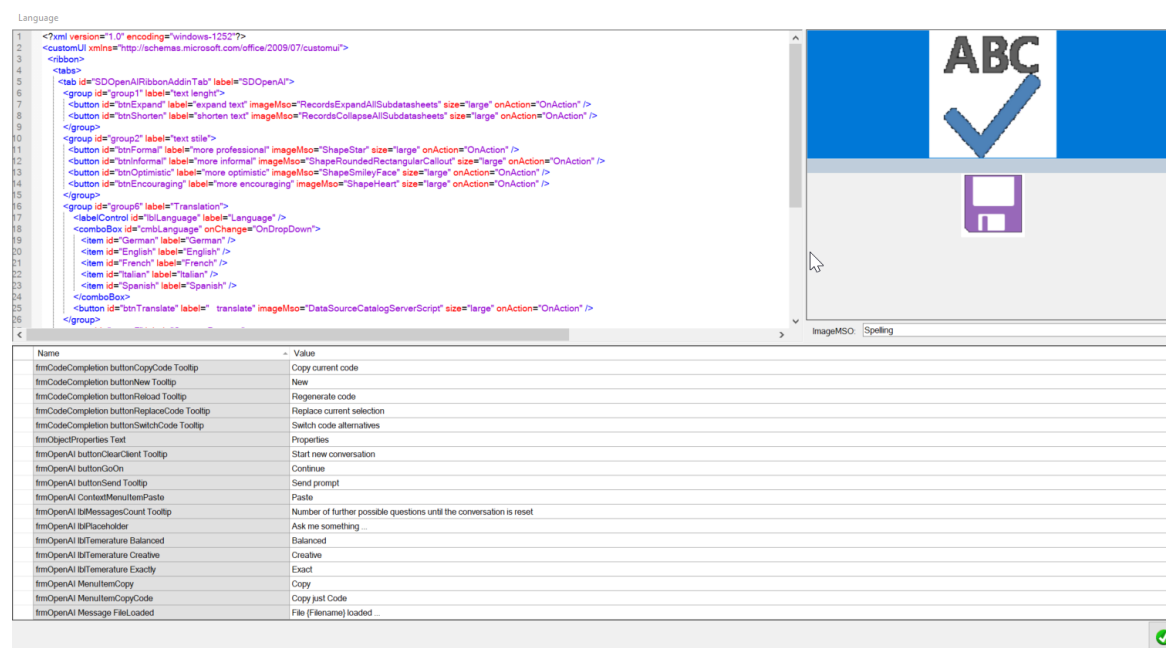

```
Public Function ExportAllCustomers(ByVal sPath As String)
'Use ExportRecordsetToExcel, Table = tblCustomers
End Function
```

# THE ADDIN

- Predefined Ribbon that can be customized and expanded
- Even the 4 main features in the VBE editor can be customized
  - Explain the code
  - Complete the code
  - Optimize the code
  - Add comments
  - Custom prompt

# DEMO THE ADDIN – RIBBON PART

- Use in forms (01)
  - Expand text, OpenAI client, translation
- Use In forms (02)
  - Shorten text (2x), Individual prompt
- Settings
- Languages

# DEMO THE ADDIN – VBA PART

- Explain the code
- Complete the code
- Optimize the code
- Add comments

239,90 €

any number of users

No follow-up costs - except OpenAI Api

free update within the current version

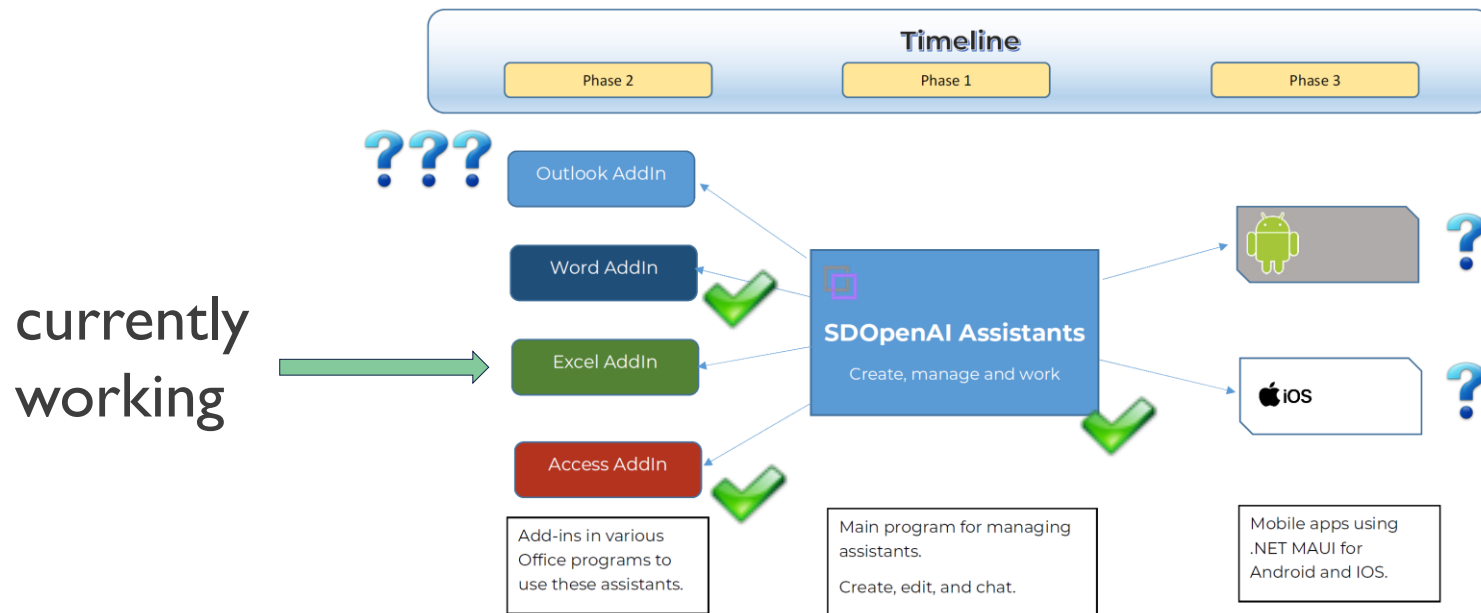

- AddIn is available for
  - MS Access
  - MS Word
  - MS Excel
  - MS Outlook (old version)

## SECOND GENERATION - THEORY

- Assistants are custom vector databases to store your information
- On top of your assistant knowledge you can put a LLM (eg. gpt-ol, gpt-4,...)
- You get the model, but in addition it knows your data too
- Unlimited assistants are possible – up to 100 GB of your data
- One assistant for one purpose – get better results

# SECOND GENERATION

- SDOpen AI Assistants is more of an infrastructure – a toolset

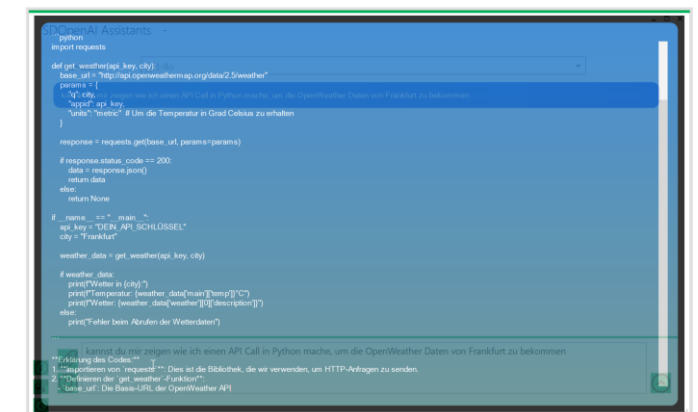

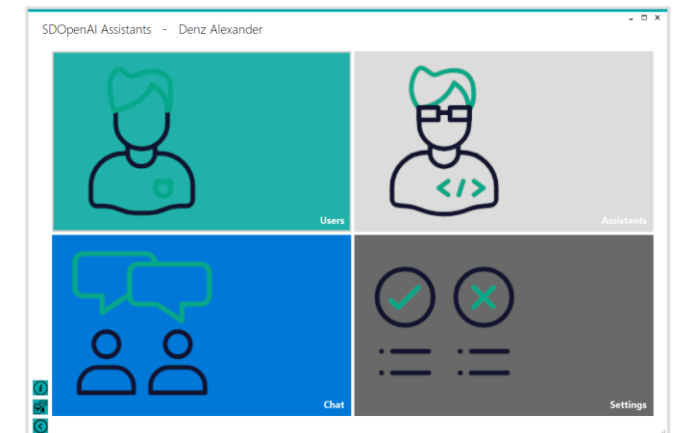

A tool to let you build any AI driven function you ever dreamed of.

In an Ribbon or the VBE editor

# THE MAIN APPLICATION

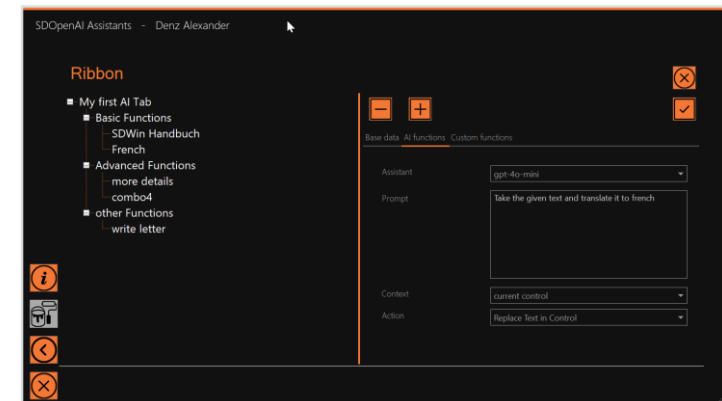

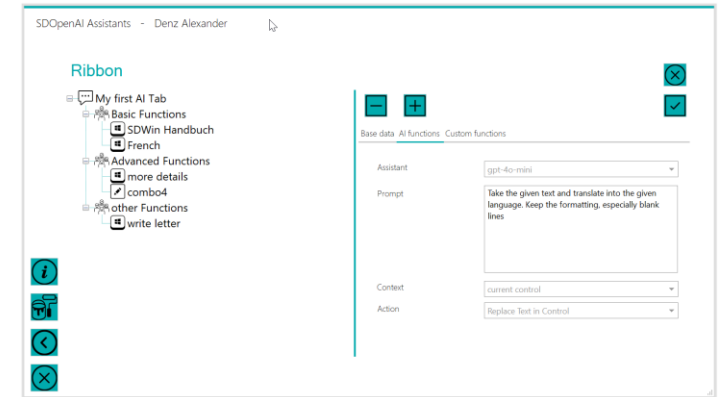

- Define Assistants and give them your knowledge
- Describe their behaviour
- Manage users and their rights
- Manage all settings
- Users can use the assistants shared

with them in chat

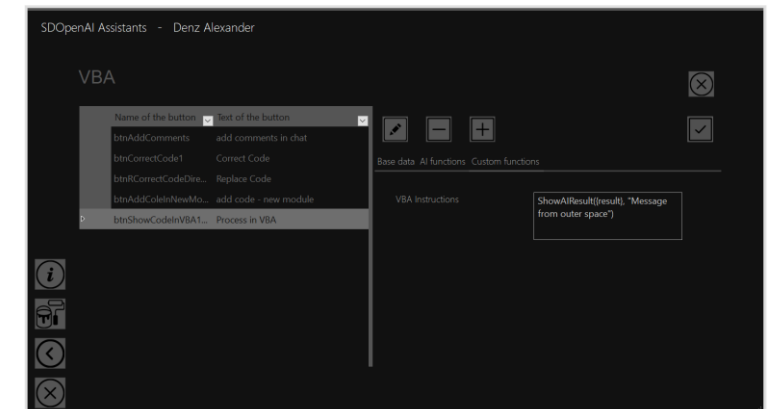

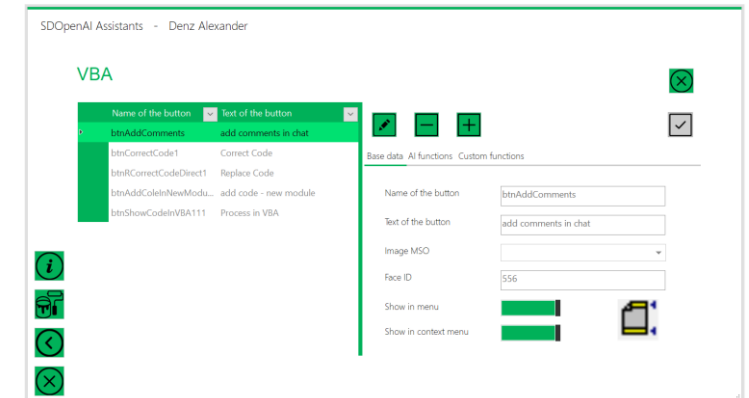

# DEMO THE ADDIN – RIBBON PART

- Demonstration of ribbon functions
- Show ribbon customization

# DEMO THE ADDIN – VBA PART

- Generate code in new module
- Add comments in chat
- Call VBA Code after AI function
- Show VBA customization
- Demonstrate usage of assistants from VBA
